**SUMMARY**

25X1D

Sovetskaya Gavan is one of the most important air and naval bases in the Soviet Far East, ranking second only to Vladivostok. Four SAM launch sites deployed for defense of Sovetskaya Gavan have been identified on photography of [REDACTED]. No SAM support facility was identified on the photography of this area.

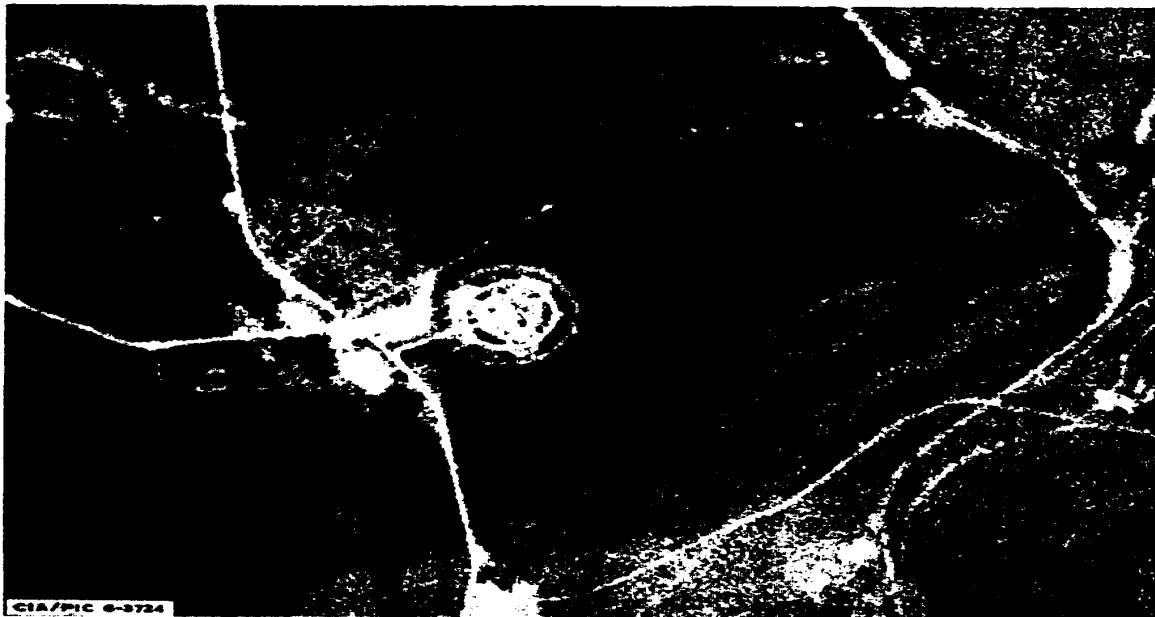

25X1D

Two of the SAM sites are near coastal defense areas that appeared active on [REDACTED] TALENT photography. One of these sites (item 2) was constructed near an eight-gun heavy antiaircraft position; the other site (item 4) is close to an established coastal defense and electronics position. The quality and scale of the [REDACTED] photography preclude detailed interpretation of these sites.

**FIGURE 2. SAM SITE NNE OF SOVETSKAYA GAVAN (see Fig 1, Item 1).**

**COORD**

49-11N 140-19E. 8-01

**LOCATION**

8 nm NNE of RP, on coast 2 nm SW of Mys (Point) Dyunko and 5.5 nm SE of Alekseyevskoye Airfield.

**REMARKS**

Construction is probably complete or in final stages, and the site is probably operational. The operations area appears complete. The circular road, launch revetments, three missile-hold revetments, and guidance revetment are probably complete. A probable support area is just west of the operations area. An irregularly shaped fence encloses the operations area.

**FIGURE 3. SAM SITE SE OF SOVETSKAYA GAVAN (see Fig 1, Item 2).**

**COORD**

48-59N 140-23E. A-08

**LOCATION**

6.5 nm SE of RP, on coastal lowland one nm NW of Mys Nikolaya and just SE of previously established antiaircraft position.

**REMARKS**

The site is probably operational. The operations area and a probable support area appear complete or in final stages of construction. The operations area consists of a completed circular road, launch and guidance revetments, and three missile-hold revetments. The probable support area is just southwest of the operations area. No security fencing can be seen.

**FIGURE 4. SAM SITE SW OF SOVETSKAYA GAVAN (see Fig 1, Item 3).**

**COORD**

48-56N 140-05E.

A-27

**LOCATION**

Approximately 10 nm SW of RP, in hilly terrain 3 nm E of Sovetskaya Gavan/Maygatka Airfield.

**REMARKS**

Construction appears complete, and the site is probably operational. The operations area consists of a completed circular road, launch and guidance revetments, and three missile-hold revetments. A probable support area is just northwest of the operations area. The operations area is enclosed by a fence.

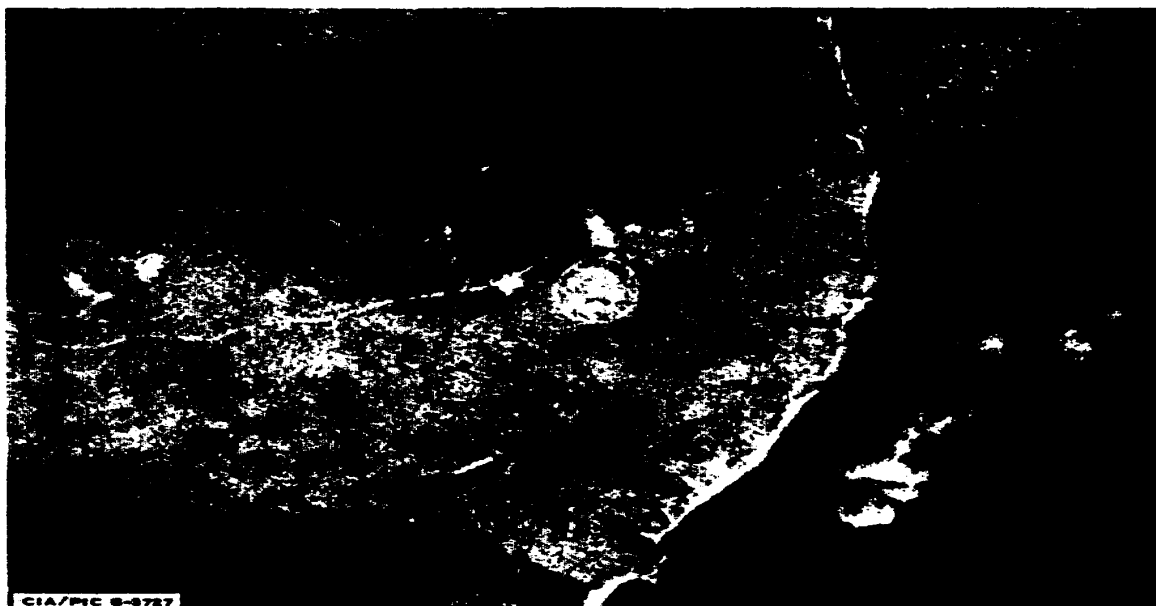

FIGURE 5. SAM SITE SSW OF SOVETSKAYA GAVAN (see Fig 1, Item 4).

**COORD**

48-49N 140-14E. A-20

**LOCATION**

14.5 nm SSW of RP. Site was constructed on a hill at a previously established coastal defense/early warning area (identified on TALENT photography).

25X1D

**REMARKS**

The site is probably in the mid stage of construction and not operational. The circular road and launch and guidance revetments in the operations area appear complete. A probable support area is just north of the operations area. No security fence for the operations area is discernible.
